The body of a San Antonio man was found on a ranch on Privilege Creek Road last Saturday. Missing for two months, Frank Lara was discovered by a rancher on the Bandera property.

“He’s been missing since June,” Bandera County Chief Deputy Matt King said, adding authorities believe Lara was murdered and his body was brought to Bandera County.

King said the San Antonio Police Department has taken over.

Lara, 26, a tattoo artist, was last heard from on June 23, according to a report by Fox News San Antonio. King said an autopsy was performed which confirms foul play.
