State's latest count shows 6,110 CoViD-19 cases confirmed in Texas

As of today, at 12:30 p.m., 151 of 254 Texas counties have reported positive cases of CoViD-19. According to the Texas Department of State and Health Services, 63,751 tests have been administered - 5,143 in public labs, 58,608 in private labs. Of 6,110 cases that have been reported, 105 people have died.

Closer to home, nine cases have been confirmed in Kendall County, two have been confirmed in Kerr County, and 342 cases have been confirmed in Bexar County. No cases have been confirmed in Bandera County, as of April 4.
