TRIVIA TIDBITS

The Fourth of July, or July Fourth, was the date in 1776 when the members of the Second Continental Congress adopted the Declaration of Independence, whereby we broke our ties to the Kingdom of Great Britain, now known as the United Kingdom.

Celebrated since its first anniversary by the states, it was first called Independence Day in 1791. In 1870 Congress made it an unpaid holiday for federal workers and in 1938 changed that to a paid holiday for federal workers.

It is considered THE National Day of the United States.

MORE TRIVIA

America had no national anthem for much of her history, although the words were written by Francis Scott Key in 1814 and the poem was put to music by John Stafford Smith using the tune of the popular British drinking song, "To Anacreon in Heaven." It became so popular it was recognized by the Navy in 1889 and by President Woodrow Wilson in 1916. It was finally made the national anthem in 1931 by a congressional resolution, which was signed by President Herbert Hoover.

LAKE AND RIVER

On June 22, Medina Lake is at 65.7 per cent capacity. The lake level is 1048.04 feet, which is down 16.16 feet.

The Medina River has a flow of 12.0 cfs in Bandera, running 3.46 feet deep at the gage.
