## Prayers for Pippa

On Thursday evening, Aug. 13, Pippa, a beautiful female collie at A DOGGIE 4 YOU, was bitten by a rattlesnake approximately three to five times. She was immediately rushed to MissionVet Specialty and Emergency Hospital in San Antonio where an anti-venom injection was administered. When she did not respond to the first injection, a second and third anti-venom injection were required. An IV supplied Pippa with constant pain medications.

On Saturday, Pippa's heart rate, blood pressure and temperature finally returned within the normal range, but her other counts were off. She continued to refuse food, but once the vets get some food in her, they feel she can make some real progress. Her medical bills currently are almost \$10,000 and rising!

Prayers and donations needed: A Doggie 4 You - a nonprofit dog rescue in Pipe Creek, is asking for the public's help for Pippa with urgent prayers and donations towards her life-saving medical bills. Donations can be gratefully made several ways:
