Pipe Creek Christian School receives new cross

Contributed

Pipe Creek Christian School

As the morning sun rose and added warmth to the earth on a recent cold Pipe Creek morning, it became the perfect backdrop for a new cross erected on the Pipe Creek Christian School campus.

The original wooden cross donated by the George Sistrunk family was damaged beyond repair in a recent windstorm. Our thanks are extended to Horizon Structural Systems in New Braunfels, who donated the six-inch steel tubing, and to Jeff Hayes, an employee of the company, and his son Jacob for welding the pieces together and erecting the cross.

It will take more than a windstorm to bring this cross down.
