The Bandera Prophet

The Anthropology Department at Texas State University has positively identified the skeletal remains discovered near the Bandera Pass Subdivision, off Old Loop 173, on July 3. Bandera County Chief Deputy Matt King said the remains belong to Brittany McMahon, 33, who was last seen on Father's Day, June 19.

Originally intended to be sent to Central Texas Autopsy in Lockhart, the remains were ultimately sent to TSU, King said. Authorities stated McMahon's family was formally notified this afternoon. The investigation into the cause of her death is ongoing.
